

## House Music

Well I don't need a house  
but I need a whole street,  
'cause my music's so loud  
and my baby can dance in the street.

Well I'll be happy all the day  
and I'll be happy all the night,  
'cause I can play my guitar  
until the morning light.

Well I don't care about people  
and I don't mind the time,  
'cause I think to make music,  
can't be a bad crime.

So I pull on the volume  
and give my guitar a kick,  
play the Rythm and the Blues,  
'till the neighbours got sick.

Well I don't need a house  
but I need a whole street,  
'cause my music's so loud  
and my baby can dance in the street.
